Sameeksha

Paper Presentation

The toughest job for mankind is to do any job the easiest way and since ages man has been effortlessly trying to do the same. Techno-management is the theme of Sameeksha-the Annual National Paper Presentation Contest that stages brilliant ideas and innovations in the field of technology and management and allows young researchers and students both at UG/PG level to bring forth the novel ideas that they have worked upon.

Sameeksha has been giving great opportunities for exploring new dimensions of knowledge, understanding the needs and identifying the best perspectives for the future. In our constant endeavor to make Sameeksha a cut above the rest and different from the league of similar competitions, we ensure that the papers get evaluated by the most renowned and eminent scholars and well-known figures from the business industry to magnify even the microscopic errors that may be far out of sight of the presenters and ensure true evaluation of the papers.

Sameeksha beckons the driving force of the future. Sameeksha beckons YOU!
